Sensors and Actuators B 23 (1995) 230–232

SENSORS AND ACTUATORS B CHEMICAL

Subject Index of Volume B23

Acid phosphatase
flow-through biosensor for sequential determination of total and prostatic acid phosphatase activity, 9
Adrenaline
a selective sensing of dopa in the presence of adrenaline, 35
Alumina
characterization of porous Al_2O_3–SiO_2/Si sensor for low and medium humidity ranges, 177
Anion-exchange membranes
possibility for potentiometric humidity sensor of composite membranes prepared from anion-exchange membranes and conducting polymer, 63

Biosensor
flow-through biosensor for sequential determination of total and prostatic acid phosphatase activity, 9

Calcium-selective electrode
a new, long-lived Ca-selective electrode, 27
Calorimetry
microanalytical estimation of cerium by a miniaturized thermoelectrical sensor, 83
Carbon monoxide sensor
properties of reactively sputtered tin oxide films as CO gas sensors, 193
Carbon tetrachloride gas sensor
fabrication of carbon tetrachloride gas sensors using indium tin oxide thin films, 49
Ceramic sensors
ceramic sensors for humidity detection: the state-of-the-art and future developments, 135
Cerium
microanalytical estimation of cerium by a miniaturized thermoelectrical sensor, 83
Combustible gas detector
detection of combustible gases by means of a ZnO-on-Si surface acoustic wave (SAW) delay line, 197
Conducting polymers
possibility for potentiometric humidity sensor of composite membranes prepared from anion-exchange membranes and conducting polymer, 63
high-frequency a.c. investigation of conducting polymer gas sensors, 223
Cross-sensitivity effects
optimal selection of sensors based on the catalogue data: a vector-space approach to cross-sensitivity effects, 71

Earth's ozonosphere
semiconductor gas sensors and problems of the Earth's ozonosphere, 209
Electrochemical sensor
microfabricated heavy metal ion sensor, 41

Enzyme activity
flow-through biosensor for sequential determination of total and prostatic acid phosphatase activity, 9

Field-effect devices
recent developments in field-effect gas sensors, 127
Flow injection
flow-through biosensor for sequential determination of total and prostatic acid phosphatase activity, 9

Gas sensors
optimal selection of sensors based on the catalogue data: a vector-space approach to cross-sensitivity effects, 71
effect of surface modification due to superacid species in controlling the sensitivity and selectivity of SnO_2 gas sensors, 75
recent developments in semiconducting thin-film gas sensors, 103
pattern recognition in gas sensing: well-stated techniques and advances, 111
thin-film gas sensors based on semiconducting metal oxides, 119
recent developments in field-effect gas sensors, 127
thick-film gas sensors, 157
a test system for gas sensors, 163
how can sensitive and selective semiconductor gas sensors be made?, 173
high-frequency a.c. investigation of conducting polymer gas sensors, 223

Heavy metal ion sensor
microfabricated heavy metal ion sensor, 41
High-frequency a.c. measurements
high-frequency a.c. investigation of conducting polymer gas sensors, 223
High-temperature superconductors
NOx sensor using $YBa_2Cu_3O_{7-\delta}$ thin films, 219
Humidity detection
ceramic sensors for humidity detection: the state-of-the-art and future developments, 135
a novel humidity-detection mechanism for ZnO dense pellets, 181
Humidity sensor
possibility for potentiometric humidity sensor of composite membranes prepared from anion-exchange membranes and conducting polymer, 63

Immunoglobulin
immunological activity of IgG Langmuir films oriented by protein A sublayer, 1
Impedance spectroscopy
a test system for gas sensors, 163

Elsevier Science S.A.

Internal calibration
microanalytical estimation of cerium by a miniaturized thermoelectrical sensor, 83
ISFETs
characterization and testing of polymer–oxide adhesion to improve the packaging reliability of ISFETs, 17
ITO thin films
fabrication of carbon tetrachloride gas sensors using indium tin oxide thin films, 49

Langmuir–Blodgett films
immunological activity of IgG Langmuir films oriented by protein A sublayer, 1
L-Dopa
a selective sensing of dopa in the presence of adrenaline, 35
Lipid membranes
electric characteristics of lipid-modified monolayer membranes for taste sensors, 55

Metal oxides
thin-film gas sensors based on semiconducting metal oxides, 119
Microfabrication
microfabricated heavy metal ion sensor, 41

Nitrogen oxide sensor
NOx sensor using $YBa_2Cu_3O_{7-\delta}$ thin films, 219

Ozone measurement
quantitative ozone measurement using a phthalocyanine thin-film sensor and dynamic signal evaluation, 215

Packaging
characterization and testing of polymer–oxide adhesion to improve the packaging reliability of ISFETs, 17
Palladium thin films
elastic properties of thin-film palladium for surface acoustic wave (SAW) sensors, 203
Pattern recognition
pattern recognition in gas sensing: well-stated techniques and advances, 111
Phosphine
phosphine and phosphorus oxide concentration measurements with Ag^+ β-alumina, 93
Phosphorus oxides
phosphine and phosphorus oxide concentration measurements with Ag^+ β-alumina, 93
Phthalocyanine thin films
quantitative ozone measurement using a phthalocyanine thin-film sensor and dynamic signal evaluation, 215
Porous Al_2O_3–SiO_2/Si humidity sensor
characterization of porous Al_2O_3–SiO_2/Si sensor for low and medium humidity ranges, 177
Potentiometric sensor
possibility for potentiometric humidity sensor of composite membranes prepared from anion-exchange membranes and conducting polymer, 63
Protein A
immunological activity of IgG Langmuir films oriented by protein A sublayer, 1

Reaction enthalpy
microanalytical estimation of cerium by a miniaturized thermoelectrical sensor, 83
Redox reaction
microanalytical estimation of cerium by a miniaturized thermoelectrical sensor, 83

SAW sensors
elastic properties of thin-film palladium for surface acoustic wave (SAW) sensors, 203
Semiconductor gas sensors
semiconductor gas sensors and problems of the Earth's ozonosphere, 209
Semiconductors
recent developments in semiconducting thin-film gas sensors, 103
how can sensitive and selective semiconductor gas sensors be made?, 173
Semiconductor sensors
a test system for gas sensors, 163
Sensor array
study of the effect of the sensor operating temperature on SnO_2-based sensor-array performance, 187
Silicon
characterization of porous Al_2O_3–SiO_2/Si sensor for low and medium humidity ranges, 177
detection of combustible gases by means of a ZnO-on-Si surface acoustic wave (SAW) delay line, 197
Silicon oxide
study of the effect of the sensor operating temperature on SnO_2-based sensor-array performance, 187
Silver beta-alumina
phosphine and phosphorus oxide concentration measurements with Ag^+ β-alumina, 93
Sulphur dioxide sensors
a test system for gas sensors, 163
Superacid species
effect of surface modification due to superacid species in controlling the sensitivity and selectivity of SnO_2 gas sensors, 75
Surface acoustic wave delay line
detection of combustible gases by means of a ZnO-on-Si surface acoustic wave (SAW) delay line, 197

Taste sensors
electric characteristics of lipid-modified monolayer membranes for taste sensors, 55
Test system
a test system for gas sensors, 163
Thermal chemosensor
microanalytical estimation of cerium by a miniaturized thermoelectrical sensor, 83
Thermopile
microanalytical estimation of cerium by a miniaturized thermoelectrical sensor, 83
Thick-film sensors
thick-film gas sensors, 157
Thin-film sensors
recent developments in semiconducting thin-film gas sensors, 103
thin-film gas sensors based on semiconducting metal oxides, 119

Tin oxide
effect of surface modification due to superacid species in controlling the sensitivity and selectivity of SnO_2 gas sensors, 75
properties of reactively sputtered tin oxide films as CO gas sensors, 193

Vector-space approach
optimal selection of sensors based on the catalogue data: a vector-space approach to cross-sensitivity effects, 71

YBCO
NOx sensor using $YBa_2Cu_3O_{7-\delta}$ thin films, 219

Zinc oxide
a novel humidity-detection mechanism for ZnO dense pellets, 181
detection of combustible gases by means of a ZnO-on-Si surface acoustic wave (SAW) delay line, 197
